About R&R

Trusting your work to R&R means that you will get more time for rest and relaxation. You can be confident in the quality of our work and our cost efficiency whether you are needing a new installation, a refurbishment, a replacement or a repair. Quality customer service is at our core.

R&R provides bus and coach engineering services, specifically the installation and integration of hardware systems such as exhaust after treatment systems, contactless ticketing, GPS and CCTV systems etc. We also undertake the refurbishment and upgrade of bus and coach interiors including lighting systems, decorative panels, seats, window replacement etc.

With R&R, you will find we are:

- ⚙️ **Reassuring:** Providing high quality, highly skilled and motivated technicians.
- ⚙️ **Reliable:** Always on time, both on arrival and on completion of the project.
- ⚙️ **Reasonable:** High quality installations at affordable, value for money prices.
- ⚙️ **Rapid:** Time is money and so we complete projects as quickly as possible.
- ⚙️ **Robust:** If we commit to a project, we will see it through to conclusion.
- ⚙️ **Responsible:** Ensuring compliance with standards, legislation and regulations.
- ⚙️ **Reassuring:** From the knowledge that you can have trust in our performance.
- ⚙️ **Rated:** Highly, by our past customers and clients for our quality and compliance.
- ⚙️ **Respectful:** Our engineers always comply with your operating conditions and are courteous and communicative.
- ⚙️ **Resourceful:** Finding solutions should any issues arise during installation.

We are available to undertake your requirements anywhere in the UK, Europe and further afield, working at your own premises, utilising our skilled engineers and electricians. We can provide the extra manpower you need and/or additional skills, experience and expertise. We work with bus and coach manufacturers, coach builders and operators and also have experience in upgrading and fitting out other types of vehicles including hospitality units, horse boxes, broadcast trucks etc.

Some examples of the work we undertake include:

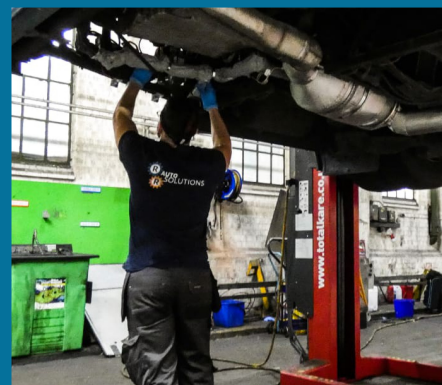

-  **Ticketing Systems:**
Today's public transport has to follow the fast-paced environment of a connected modern world that is focused on convenience, accessibility, speed and real-time interaction. We understand this necessity. From paper tickets to innovative contact and contact-less smart card tickets through to SMS tickets, we provide a wide variety of systems installation services.
-  **Exhaust After Treatment System Installation:**
The focus on a healthier, cleaner environment is changing the way public transport operates. For your vehicles to keep up with increased regulations whilst also having less impact on the environment, we provide professional and comprehensive installation of exhaust after treatment systems. Years of successful activity in this sector allows us to accommodate your need for maintaining motor power and performance, while reducing environmental impact.
-  **CCTV Camera Installation:**
There is one need that is common among all transport end users - safety. The installation of CCTV systems in your vehicles helps to ensure the safety for your passengers and staff plus security for your assets. Our long-standing expertise allows us to deliver CCTV installation services on buses and coaches.
-  **Body and Electro-Mechanical Installations:**
The world today is driven by speed, efficiency and reliability. In the public transport world, reliability is measured by a good service being provided on a constant basis. Regardless of your aims, being reliable can only get you one step ahead. We offer a range of body and electro-mechanical installations to help you avoid downtime and expensive breakdowns. From body repairs to glazing and turbo replacements, we provide you with the most efficient and cost-efficient service.
-  **Servicing and Repairs:**
As a provider in the bus and coach industry, consumers rely on your punctuality, as well as your ability to get them from A to B safely, without any delays. To ensure the smooth running of your fleet and to minimise downtime, we utilise our extended knowledge and understanding to provide you with professional, reliable, and cost-efficient servicing and repairs solutions, including those to complement your own resources.

About R&R

The R&R Team

All members of the R&R team are vetted, trained, tried and tested engineering specialists. All are highly reliable, trustworthy, skilled, knowledgeable, well presented, courteous, flexible and highly motivated to get your job done. Being virtual allows us to be highly flexible and very cost competitive. We can assist, anywhere, anytime.

Radu & Roxana

R&R Auto Solutions is run by Radu and Roxana, hence the R&R name. Radu is a highly experienced coach builder and engineer with significant experience in the sector, having previously worked for both bus, coach and other vehicle manufacturers and coach builders, leading high end conversions for customers such as National Express, Alexander Dennis, IdVerde and the 2012 Paralympics. Meanwhile, Roxana manages all the administration, accounts and assists with company operations.

At R&R, we always seek to retain clients, forming a long relationship.

For further information, a conversation about your project and how we can give you and your team extra time for more R&R, please contact us.
